

FORMPLEX

50 YEAR GUARANTEE

INSTALLATION DATA

COMPLETION DATE:

Formplex guarantees for a period of 50 years from the date of installation that the Cladding and accessories are free from manufacturing defects and when installed according to Formplex's instructions and under normal and proper use, the Cladding is guaranteed against peeling, flaking, rusting, blistering and corroding

If at any time within the guarantee period, the cladding fails to conform to the characteristics guaranteed in paragraph one and only after a representative of Formplex has inspected the Cladding. Formplex will, at its option, repair, replace or refund the original sales price of the defective portion of the Cladding.

This guarantee is only valid if the owner keeps the Cladding maintained as specified in the cleaning instructions.

The guarantee does not cover damage of any kind resulting from impact of foreign objects, misuse fire, negligent maintenance, acts of God, air or chemical pollution, fumes or vapours or colour fading or chalking as a result of normal weathering. Nor does this guarantee cover damage resulting from failure of the substrate wall on which the Cladding is applied by movement or settling thereof. It is not recommended to paint UPVC Weatherboards.

Formplex make no guarantees or warranties, express or implied, that are not included herein. No representative of Formplex or its distributors or dealers is authorised to make any changes or modifications to this guarantee.

In no event shall Formplex be liable for any special, indirect, or consequential damages, arising from any breach of this guarantee.

If a claim is made in respect of Cladding that is no longer available, Formplex reserves the right to supply vinyl Cladding of equivalent quality for the purpose of fulfilling its obligations pursuant to this guarantee.

This guarantee is valid only in Australia and does not negate or attempt to negate any legal obligation of Formplex under State or Commonwealth law.

All claims pursuant to this guarantee should be submitted in writing to:

The Customer Services Department
Formplex
P.O. Box 145
Elsternwick, Victoria, 3185.

CLEANING INSTRUCTIONS

With very little effort, you can keep Formplex Vinyl Weatherboards looking clean and new. Although the Cladding will get dirty, like anything else exposed to the atmosphere, a heavy rain will do wonders in cleaning it. Or you can wash it down with an ordinary garden hose. If neither rain or hosing do a satisfactory job, just follow these simple instructions:

1. Get an ordinary, long handled car washing brush. This brush has soft bristles and the handle fastens onto the end of a hose. It lets you wash the Cladding just like you wash your car.
2. If the dirt is hard to remove, such as soot and grime found in industrial areas, wipe down the Cladding with a solution made up of the following:

1/3 cup of a detergent
2/3 cup of a household cleaner
4 litres of water

3. If stubborn stains exist, remove them with cleaners like Ajax, fine steel wool pads or fine sandpaper. You won't discolour the Cladding because the colour goes all the way through. No painted surface to wear off.
4. If you want to wash down your entire house start at the bottom and work up to the top in order to prevent streaking.

If you face an extremely difficult cleaning problem which the above instructions do not solve, contact:
