Maintenance Free Weatherboards Est 1981

Benefits of cladding

External wall cladding is an adaptable building product that can be used whether renovating or extending your current home. New build, extension or renovating a tired exterior our uPVC is an excellent choice to give an attractive, long lasting and hard wearing finish, that you will never have to paint.

One of the most common reasons that homeowners choose uPVC exterior cladding on their home is the aesthetic appearance it will add to their property. It can give a property instant kerb appeal.

Whilst there is an initial cost associated to purchasing and installing cladding, it delivers instant added value and immense long-term investment to a building.

External uPVC cladding only requires an occasional wash down to maintain its new look.

Insulated vinyl cladding can significantly improve the insulation properties of your home.

Basically, improving the thermal efficiency of your home is a combination of many elements including insulation, windows, walls, roofing and flooring. External uPVC cladding can help to improve the thermal insulation of your home saving you money on heating and cooling costs over time.

What is uPVC exterior wall cladding?

Exterior wall cladding is an attractive, affordable way of upgrading your home's overall appearance.

uPVC weatherboard cladding has become a popular solution for its low maintenance features and durability compared to other types of cladding boards.

The uPVC weatherboards can be installed over the top of the existing surface giving it a fresh new look, preserving the original façade and adding an extra layer of protection to your home.

Why use Formplex?

Formplex has been proudly servicing the home improvement sector for over 40 years. We have the knowledge and experience to help you bring your project to life.

Closest look to a traditional weatherboard appearance with wood grain texture. Two part process – 13mm insulform foam insulation sheet laid first then cladding over the top.

Available colours

Frequently asked questions

How much will it cost ?

Not every house is the same so our cladding installations are quoted on a job-by-job basis as we will measure and quote specifically to your project needs.

Vinyl cladding is extremely cost effective due to its quick installation meaning quicker finish times. This represents significant cost savings for you.

Interest free payment plans are also available.

Do you take my existing weatherboards off?

The uPVC weatherboards are installed over the top of the existing structure giving it a fresh new look and a protective shell for the material underneath.

How do I clean it?

We recommend washing it down once a year with warm soapy water and a soft bristled broom. High pressure cleaners can also be used where height is involved.

Count your savings for years to come

"We had our house clad with Formplex weatherboards a few years back and could not be any more happy, Firstly with the product we have noticed a drop in temperature inside the house on those very hot days. Secondly the installation done by their people is very well done and professional. We found the people at Formplex very pleasant to deal with and willing to help with any issues. Well done Formplex Highly Recommended."

"My mother and I had Great service from the team at Formplex. The company delivered the product exactly when they said and true to their word sent the contractor on the date discussed. The difference formplex made to my 1972 house is amazing and gave me a 100k bump on my house. Thank you very much Formplex I would recommend it over a paint job anyday. You have my stamp of approval."

"Formplex are to be commended for their outstanding warranty guarantee, especially considering as the house is in another state. My house looks amazing and completely worth every penny !"

"Very happy with the Formplex Weatherboards for our new house, they look absolutely fantastic! We are so excited about our new home and now we will not have to worry about maintaining the cladding or painting ever! We do not know why anyone would choose timber weatherboards or the cement fibre ones, Formplex weatherboards are ideal! Thank you Formplex, we are going to love our cladding for the next 50 years!"
